Compliance Verification Date	: 17 th August 2026
Hash Value	: A401162237F10BD5308B5AD0F94E8DD8BF772045488C5458ED56895911E3A171
Path	: C:\xampp\htdocs\hciseychelles.gov.in
Certificate Validity	: 1 year (16 th August 2027)

The above web application has undergone Vulnerability Assessment & Penetration Testing, by our organization through provided testing URL as per guidelines, advisories, white papers and vulnerability notes, directions issued by CERT-In. We also tested the web application against various Web Security Standards like OWASP Application Security Verification Standard (ASVS), Open Source Security Testing Methodology Manual (OSSTMM3), Common Weakness Enumeration (CWE), Common Vulnerabilities Exposures (CVE), Common Attack Pattern Enumeration and Classification (CAPEC), SANS Top 25 Software Errors etc.

The audit was conducted on the given staging environment, not in production environment. .

Conclusion: Based on the audit outcomes, it is certified that the above application is free from any known vulnerabilities as on the audit date.

The assessment represents the security posture of the application at the time of testing only. Any changes to application code, configuration, infrastructure, deployment architecture or security controls after the assessment period may invalidate this certificate. The certificate is valid only for the explicitly defined scope.

Other Recommendations:

1. Web Server Security and the OS hardening need to be in place for the production server.
2. Web Application should comply with Guidelines for Secure Application Design, Development, Implementation & Operations issued by CERT-In.
3. Organization must comply with the Directions issued by CERT-In (Notification No. 20(3)/2022-CERT-In) dated 28th April 2022 relating to information security practices, procedure, prevention, response and reporting of cyber incidents for Safe & Trusted Internet.
4. Auditee should follow the Technical Guidelines on SBOM | QBOM & CBOM | AIBOM | HBOM | Version 2.0 issued by CERT-In dated 09.07.2025.
